Message from the Guest Editor

Dear Colleagues,

To commemorate ten years of publishing *Animals*, papers are sought that describe the progress of scientific disciplines within animal science over the last ten years. It is expected that this will include, but not be restricted to, advances published in *Animals*. All the major sectors covered by *Animals* are suitable for this Special Issue, but to avoid duplication, it is recommended that you contact me (c.phillips@outlook.com) before drafting the paper to check that no one else is covering the topic. Particular emphasis should be placed on what has been achieved through these publications, changes in legislation, attitudes, development of standards, etc.
