Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editor

Dear Colleagues,

In public health, the availability of data on the epidemiological situation of diseases of veterinary interest represents an important tool for improving decision-making processes. In this sense, the slaughterhouse is considered an epidemiological center for the control of animal health and zoonosis.

Therefore, I invite submissions on recent findings, such as original research, reviews, or case reports, on (i) epidemiological assessments detectable by slaughter; (ii) effects of animal welfare on meat quality during transport and slaughtering; (iii) control of foodborne disease during slaughter; and (iv) technological innovations applicable to slaughter.

Prof. Giancarlo Bozzo

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
