## Clinical Research Advances in Intensive Neurorehabilitation in Companion Animals

Guest Editors:

**Dr. Ângela Martins**

Faculdade de Medicina  
Veterinária, Universidade  
Lusófona de Humanidades e  
Tecnologias, Campo Grande,  
Nº376, 1749-024 Lisboa, Portugal

**Prof. Dr. António J. A. Ferreira**

Neurology, Veterinary Medicine  
Faculty, Lisbon University, 1300-  
477 Lisbon, Portugal

**Prof. Dr. Darryl Millis**

Department of Small Animal  
Clinical Sciences, College of  
Veterinary Medicine, The  
University of Tennessee,  
Knoxville, TN 37996, USA

Deadline for manuscript  
submissions:

**20 September 2024**

### Message from the Guest Editors

In recent times, neurorehabilitation has been implemented in daily clinical practice as an essential tool for the recovery of ambulation, with increasing emphasis on small animals. All dogs and cats not presenting with deep pain, in either chronic or acute situations, can benefit from complementary and multimodal rehabilitation programs. Therefore, target patients may be those with spinal cord compressive myelopathies (Hansen type I and II) usually after a surgical approach, vascular or traumatic noncompressive myelopathies, vertebral fractures or luxation, and patients with peripheral nervous system disorders ranging from neuropraxia to severe axonotmesis injuries. Some of these patients are condemned to euthanasia. Therefore, we extend an invitation to all our colleagues to become pioneers in this area of veterinary medicine, emerging with necessary scientific soundness and rigor. All of this has prompted the journal “*Animals*” to call for a Special Issue on “Clinical Research Advances in Intensive Neurorehabilitation in Companion Animals”. We encourage the submission of article contributions in formats supported by this journal.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
