submissions:

30 November 2024

Message from the Guest Editors

Dear Colleagues,

Endoscopy is a useful diagnostic technique for the detection of benign or malignant lesions in veterinary medicine. Examinations of upper and lower airways, upper and lower gastrointestinal tract, and urogenital tract are commonly performed in small and large animals. The technological developments achieved in recent years have enabled endoscopy to take on a therapeutic role in the management of respiratory, digestive, and urogenital diseases. Moreover, artificial intelligence-based applications could improve the diagnosis and treatment of specific conditions, and follow-up procedures in veterinary endoscopy, as recently reported in human medicine.

This Special Issue of *Animals* aims to collect the most significant and recent research regarding recent advancements in veterinary endoscopic imaging and therapy. Therefore, original research studies as well as review articles with a focus on the most recent insights regarding diagnostic and therapeutic veterinary endoscopy are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
