

Recent advances in Marine Mammal Research

Guest Editors:

Dr. Claudia Gili

Director of Department of Conservation of Marine Animals and Public Engagement, Stazione Zoologica Anton Dohrn, 80137 Naples, Italy

Dr. Cinzia Centelleghè

Department of Comparative Biomedicine and Food Science, University of Padova, 35020 Legnaro, Italy

Deadline for manuscript submissions:

closed (30 June 2021)

Message from the Guest Editors

Marine mammals are globally considered as valuable bioindicators with enormous potential for public health monitoring. However, many aspects of their anatomy, physiology, pathology and behavior remain poorly understood. Monitoring marine mammals is crucial for the health assessment of both individuals and populations, as well as providing the scientific basis for analyzing the anthropogenic impact on marine ecosystems.

This Special Issue aims to provide a comprehensive overview of the current knowledge of marine mammals with a particular emphasis on their physiological adaptations to the aquatic environment and its implications for the conservation of the numerous species that populate marine ecosystems.

Considering your ongoing research in the field of marine mammal research, we invite you to consider submitting your manuscript in the upcoming issue “**Recent Advances in Marine Mammal Research**” for *Animals*. We kindly ask you to review the attached instructions for authors.

Also, we request that you pass on the information to your colleagues. If anyone shows interest in submitting a manuscript to our journal, please advise them to contact us directly.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
