Message from the Guest Editors

Dear Colleagues,

Endoscopy and endoscopic, or minimally invasive, surgery are some of the most useful tools for diagnosis and treatment in veterinary medicine. Routine procedures include examination of the upper and lower gastrointestinal tract, upper and lower airways, urogenital tract, abdominal cavity (laparoscopy), thoracic cavity (thoracoscopy), joint spaces (arthroscopy), and external and middle ear (video-otoscopy). Examinations and treatments done through natural orifices or through small incisions are also much more attractive to clients and staff. This Special Issue aims to collect the most significant and recent research regarding the use of diagnostic endoscopy, interventional endoscopy, and minimally invasive endosurgery in domestic and wild animal practice, including exotic animals. This Special Issue covers soft tissue endoscopy, including airway endoscopy, gastrointestinal endoscopy, diagnostic and operative laparoscopy, diagnostic and operative thoracoscopy, urogenital endoscopy, and otoscopy. In this Special Issue, original research articles, such as clinical trials, prospective or retrospective studies, case reports, as well as reviews, are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
