Deadline for manuscript submissions:

closed (15 May 2024)

Message from the Guest Editors

Dear Colleagues,

We invite and encourage you to submit papers to the Special Issue "Advances in Animal Anatomy Studies". Animal anatomy is not only a distinct field of science but also plays an important role in the education of future veterinarians, biologists, and specialists in animal-production-related fields. Therefore, the Special Issue is for articles related to advances in animal anatomy studies, with topics of interest including the anatomy of domestic and free-living species, comparative and topographic anatomy, modern methods of teaching, and the use of advanced technology in morphological subjects, including various imaging techniques and modern techniques of anatomical specimen preparation.

We hope to assemble a series of research articles, reviews, perspectives, and summary opinions that reflect the full diversity of the field, highlighting current and future trends in the teaching of morphological and preclinical subjects.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in ‘Agriculture, Dairy & Animal Science’; 16/167 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
