Pig Welfare, Immunity and Health - Implications and Applications in Sustainable Production

Guest Editors:

Prof. Volker Stefanski

Behavioral Physiology of
Livestock, Institute of Animal
Science, University of
Hohenheim, Stuttgart, Germany

Dr. Galia Zamaratskaia

Department of Molecular
Sciences, Swedish University of
Agricultural Sciences, Box 7015,
750 07 Uppsala, Sweden

Deadline for manuscript
submissions:

closed (31 July 2020)

Message from the Guest Editors

Pig production faces substantial challenges in the future, as increasing public concern about animal welfare collides with traditional production goals. Modern sustainable pork production thus includes animal health and welfare issues in addition to other pillars of sustainability. Immunocompetence and health of pigs are essential for animal welfare but can be threatened by inappropriate housing, environmental conditions or nutrition. A good function of the immune system is an obvious prerequisite for fighting pathogens, appropriate gut-microbiota interaction or successful vaccinations with important implications for disease control and immunocastration. This Special Issue aims to illuminate current integrative research on pig welfare, behavior, stress, nutrition, and immunity under varying conventional and organic housing conditions. Further, research gaps and trends should be identified by either original work or reviews.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
