Message from the Guest Editors

For a long time, most of the research in the fields of behavioral ecology and sociobiology has been pointed at the leading roles of males as the main catalysts at the bases of social dynamics. In this Special Issue, we aim to unveil the underground power of females influencing life history trajectories of many animal taxa. Parental investment, mother–infant caring, female mate choice, female leverage, formal and “out-of-sight” dominance, and female coalition and support are the pillars at the basis of the evolution of complex societies. Scholars working on a huge variety of species, encompassing invertebrates and vertebrates, will be recruited to face all the issues proposed above to explore the “powerful role of females” in an adaptive and evolutionary standpoint.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
