Message from the Guest Editor

Dear Colleagues,

Animal production in these early years of the 21st century is far from the scenario previously seen during the 20th century. Although the needs of the global population will continue to grow, we have learned that natural resources are limited and that any action impacting the environment has long-lasting consequences. Hence, animal production and reproductive management within animal production require new alternatives to adapt to a changing environment, and efficiency and sustainability need to be improved to avoid further adverse impacts in such an environment. Moreover, in 2020, the sustainability of animal production was dramatically impacted by the COVID-19 pandemic, highlighting the need to increase efficiency and resilience in this field.

Thus, we are pleased to invite authors to contribute to the new Special Issue of *Animals*, entitled “Current Challenges and Targets for the Reproductive Management of Farm Animals: Second Edition”. We invite original research papers and reviews addressing current technical or ethical challenges and targets for the more efficient, sustainable, and resilient reproductive management of farm animals.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
