Deadline for manuscript submissions:
20 February 2025

Message from the Guest Editors

Dear Colleagues,

I am delighted to present a Special Issue on the topic of "Advances in Small Animal Ophthalmic Surgery (Volume II)".

The latest technological developments and advanced surgical techniques have radically impacted the clinical practice of veterinary ophthalmic surgeons, with new diagnostic and treatment procedures making small animals' ophthalmic surgery safer, faster, and more precise.

This Special Issue aims to provide examples of new diagnostic and surgical procedures in the different subfields of small animals' ophthalmology. Published papers will describe new developments in these areas. This Special Issue accepts high-quality articles containing original research results, as well as review articles and case series of an exceptional merit.

Prof. Dr. Barbara Lamagna
Prof. Dr. Maria Pia Pasolini
Prof. Dr. Luigi Navas
