of Biological Sciences, Juiz de  
Fora Federal University, Juiz de  
Fora 36036-900, Brazil

Deadline for manuscript  
submissions:

**closed (20 May 2024)**

### Message from the Guest Editor

Parrots (Aves, Psittaciformes) are recognized by the bright colors of their plumage, their short and blunt beaks with downcurved upper mandible, zygodactylous feet, distinctive vocalization, and ability to mimic human speech. They also have a complex behavioral repertoire and emotional lives, showing social behaviors, bi-parental care, complex communication, high cognitive ability, and interindividual behavioral differences. Personality can be defined as interindividual differences in behavior that are consistent over time and across contexts. More studies about parrots' personality are needed to investigate how individuals differ from each other as well as the physiological, neural, and genetic basis of personality. It is also relevant to understand the consequences of personality for fitness and conservation in wild parrots, as well as the implications for the welfare of parrots kept in captivity or as pets. This Special Issue is focused on parrots' personality, emotions, and the link of both, since certain personality types lead individuals towards tendencies to experience certain emotions more frequently and intensely than others.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
