Message from the Collection Editors

Dear Colleagues,

The occurrence and circulation of diseases in wildlife may have several effects on biodiversity conservation, transmission of diseases at the livestock -environmental-wildlife interface, as well as on public health in case of zoonotic pathogens.

Surveillance of diseases in wildlife, joined with the understanding of their dynamics in wild animal populations, is of pivotal importance for the establishment of proper management plans for disease control and prevention.

This collection offers to researchers as well as to wildlife managers the possibility to share relevant studies and experiences related to the study of disease dynamics, ecology and practical actions carried out to reduce the impact of pathogens on animal and public health.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
