Advanced Grazing Management: Applied Nutritional and Foraging Ecology

Guest Editors:

Prof. Dr. Pablo Gregorini

Faculty of Agriculture and Life Sciences, Lincoln University, P.O. Box 85084, Lincoln 7647, New Zealand

Dr. Matthew Beck

USDA-ARS, Livestock Nutrient Management Research Unit, 300 Simmons Drive, Unit 10, Bushland, TX 79012, USA

Deadline for manuscript submissions:

closed (5 December 2022)

Message from the Guest Editors

Dear Colleagues,

‘Grazing’ livestock fulfil essential roles in ecology, agriculture, economies, and cultures throughout the world. Not only do livestock provide food wealth but they also deliver ecological services. ‘Grazing’ as an adjective, locates livestock within a particular spatial and temporal pastoral context in which they naturally graze or are grazed. The purpose of this Special Issue and book of *Animals* is to deal with both the active and passive voices of the verb ‘graze’, exploring the new dynamics of grazing management and practices. Considering ‘dynamics’ as forces and or properties that stimulate change within a system or process, new and advanced thinking, as well as an understanding of grazing on the basis of nutritional and foraging ecology, will allow for a more functional and contextual view of grazing management and the spatiotemporal dynamics and impact of pastoral livestock production on landscapes.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
