### **Dr. Gaukhar Konuspayeva**

1. UMR SELMET, CIRAD-ES, International Camel Expertise, 34398 Montpellier, France  
2. Department of Biotechnology, Faculty of Biology and Biotechnology, Al-Farabi Kazakh National University, Almaty 050040, Kazakhstan

Deadline for manuscript submissions:

**closed (30 September 2022)**

### **Message from the Guest Editors**

For a long time, camel milk consumption was limited to desert areas as a gift for visitors and mainly self-consumed by the family of nomads. Due to this, only raw or fermented milk was available. In the last few decades, camel milk has progressively entered local, national, and international markets. This new context impacted camel farming systems and stimulated research and innovations on camel milk processing, dairy product diversification, and marketing. Significant advances were reported in the making of cheese, yoghurt, fermented beverages, powder, and in the identification of alternatives to heat treatment, UHT camel milk still being impossible for the moment. Such advances allow the emergence of a camel milk sector in the national and international economy with a significant growth not only in traditional “camel countries”, but also in western countries, stimulating the new implementation of camel farms.

Thus, this Special Issue focuses on the emergence of the camel milk sector worldwide and will elucidate the challenges for science and development regarding the sustainable production, processing, and marketing of camel milk.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
