## Dairy Cattle Health Management

Guest Editor:

**Dr. Kiro Petrovski**

The Davies Livestock Research Centre, School of Animal and Veterinary Sciences, University of Adelaide, Adelaide, SA 5005, Australia

Deadline for manuscript submissions:

**closed (31 May 2022)**

### Message from the Guest Editor

Dear Colleagues,

Dairy (herd) health and welfare are well-known causes of loss of profit and the image of the industry. All health problems should be dealt with in a similar way. Therefore, the approach recommended for this Special Issue of *Animals* is the 3M (measure, manage, monitor) method.

Narrative and systematic reviews, as well as original research manuscripts that address aspects of the management of health on dairy farms using the 3M approach are invited for this Special Issue. Topics can include the role of population management in herd health, colostrum and life-long productivity and fertility, cattle health related to the control of infectious and parasitic disorders, hoof management, infrastructure, nutrition, reproductive management, udder management, and how staff training may affect health on dairy farms. The overall objective of the manuscripts should be what is known, and what needs to be investigated in the herd-level approaches using the 3M system to improve animal health and welfare on dairy farms.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in ‘Agriculture, Dairy & Animal Science’; 16/167 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.0.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
