Deadline for manuscript submissions:

**closed (31 January 2020)**

### Message from the Guest Editor

Dear Colleagues,

The transport of livestock involves a complex series of operations, which includes handling, loading, journey, and unloading at the farm or at the abattoir. Stressors experienced during transport lead to adaptive responses at the physiological and behavioural levels with consequences for the health, productivity, and welfare of the animals transported. If the transport procedures are not carried out in such a way as to reduce unavoidable stress as much as possible, the consequences could be extremely serious, including mortality, loss of weight, morbidity, and impaired carcass and meat quality. Thus, a continuous up-to-date knowledge of the physiological and behavioural needs of the animals during transport is required in order to improve their welfare, health, and products.

Prof. Leonardo Nanni Costa

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
