Message from the Guest Editor

Dear Collogues,

The scope of the Special Issue should focus on piglet feed additives. These should be natural additives of a eubiotic nature, affecting the microflora of the digestive tract in pigs. They can be commercial and non-commercial products, single components and mixtures. Their documented effect on the growth, health, and physiology of piglets is important. The digestibility may also be tested. Research on the environmental impact of the use of the additive (improved digestibility, reduced excretion of harmful substances such as N, P, ammonia, amines, or bacteria or parasites) would also be important.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in 'Agriculture, Dairy & Animal Science'; 13/143 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
