

Disease and Immunology of Rabbits

Guest Editor:

Prof. Juan Manuel Corpa Arenas

Full Professor of Histology and Anatomic Pathology, President of ASESCU (Spanish Rabbit Association) Veterinary School, Universidad CEU Cardenal Herrera c/ Tirant lo Blanch, 7 – 46115 Alfara del Patriarca (Valencia), Spain

Deadline for manuscript submissions:

closed (30 June 2020)

Message from the Guest Editor

The Animals journal gives us, as a scientific community, the opportunity to group, in a single number, all of the existing knowledge in the field of rabbit research. For this purpose, this Special Issue will consist of two major sections, immunophysiology and pathology, which affects commercial, wild, experimental, and companion rabbits.

It would be interesting to receive research manuscripts in different areas, such as on the modifications of immunological cell populations in different physiological and pathological situations, experimental rabbit models for different diseases, diseases related to breeding in captivity or traditional, or emerging diseases affecting all type of rabbits, and so on.

An update of knowledge on these topics will allow for us to easily find and concentrate on the most recent information affecting rabbits, and I am convinced that it will constitute a reference number in immunology and rabbit pathology for everybody that works and studies rabbits.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in 'Agriculture, Dairy & Animal Science'; 13/143 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
