Spain

Deadline for manuscript  
submissions:

**closed (31 August 2021)**

### Message from the Guest Editor

Aquaculture is presented as one of the main alimentary industries for the provision of the increasing protein demand for the maintenance of the growing planetary population. However, the sustainability and productivity of the aquaculture industry has to deal with different challenges, some of them related to the effects of the workaday procedures on the physiology of farmed fish. One of the main consequences of these farming activities is the stress suffered by the farmed fish that lead to several problems, as is the reduction of appetite or immune depression, as has been reported in many fish species with commercial interest. Thus, the aim of this Special Issue is to publish original research papers or reviews concerning the characteristics and consequences of the physiological stress response in commercial fish species.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in 'Agriculture, Dairy & Animal Science'; 13/143 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
