Message from the Guest Editors

Dear Colleagues,

Veterinary Obstetrics, Gynecology and Andrology Clinics are important disciplines in veterinary practice. Many studies in the literature are dedicated to the prevention of births, to the optimization of reproductive performance and neonatal survival. A knowledge of these subjects allows the rapid recognition of the main problems faced daily. In recent years there has been increasing interest in the application of reproductive technology and new methods are being explored to improve clinical research. For this reason, we propose you to participate in a Special Issue entitled “Advanced Research in Veterinary Obstetrics, Gynecology and Andrology Clinics”. This Special Issue aims to improve reproductive clinical discipline and thus optimize the procedures in the obstetrics, gynaecology and andrology fields. This Special Issue is focused on reproductive research and therefore welcomes novel research or insightful reviews on gynecologic and andrologic reproductive technologies applied to domestic animals. We encourage you to share new information about any advances that can lead to improvements in reproductive clinical discipline.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in 'Agriculture, Dairy & Animal Science'; 13/143 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
