Deadline for manuscript
submissions:

closed (30 November 2022)

Message from the Guest Editors

Veterinary pathologists are at the forefront of fighting diseases in all species and have a fundamental role in the discovery of emerging diseases that affect both humans and nonhuman animals, more evident than ever today in light of the COVID-19 pandemic.

In this Special Issue on “Advances in Veterinary Pathology” of *Animals*, we aim to present state-of-the-art research and future directions on the pathology of diseases in domestic animals, laboratory animals and wildlife species. We encourage the submission of original research, reviews, case series or unique case reports focusing on recent advances in veterinary pathology diagnostics, new and emerging diseases, the molecular pathology and biology of animal diseases, the assessment of biomarkers in anatomic and clinical pathology practice, and the use of genomics for understanding and classifying animal diseases, as well as experimental studies enhancing the understanding of the pathogenetic mechanisms of specific processes or the host immune response. Comparative pathology, translational research, and the development and application of software in digital pathology are also welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
