New Developments in Macropod Ecology, Behaviour and Welfare

Message from the Guest Editors

Macropods (kangaroos, wallabies, and rat-kangaroos) are marsupials which inhabit Australia and New Guinea. In their native range, macropods are impacted by many factors: parasites and pathogens, introduced predators, human disturbance, urban development, noise pollution, artificial light at night, habitat loss and fragmentation, cluster fencing, illegal hunting, commercial harvesting, vehicle collisions, floods, heatwaves, and wildfires. Many smaller macropod species are at risk of extinction, while larger species are considered to be overabundant or are at the centre of human–wildlife conflicts in some contexts. Some macropod species are also invasive, impacting agricultural and natural ecosystems in New Zealand and Europe. Recent research seeks to understand the nature and extent of ecological, behavioural, and welfare impacts on macropods, as well as the impacts macropods have on their environments. Research has also been directed towards innovative solutions to manage human–wildlife conflicts using behavioural manipulation and reproductive technologies.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
