Promotion, Mother and Child
Care, Internal Medicine and
Medical Specialities, University of
Palermo, 90127 Palermo, Italy

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

Dear Colleagues,

The first edition of the Special Issue “Diagnosis, Resistance and Treatment of Infections by *Candida auris*” was published in 2020. It is a successful collection with eight excellent papers and has encouraged us to open a second edition with the same topic.

As a continuation of the first Special Issue, this second edition aims to publish papers focusing on clinical and microbiological characteristics, mechanisms of virulence, antifungal resistance, efficacy of available control, and preventive and therapeutic strategies to treat *C. auris* infections.

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciples are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
