What's New: Natural and Synthetic Antibacterials and/or Agents with Multiple Activities? (3rd Edition)

Guest Editor:

Prof. Dr. Maria Stefania Sinicropi

Department of Pharmacy, Health and Nutritional Sciences, University of Calabria, Arcavacata, Italy

Deadline for manuscript submissions:

31 October 2024

Message from the Guest Editor

Dear Colleagues,

We have published two successful volumes of the Special Issue "What's New: Natural and Synthetic Antibacterials and/or Agents with Multiple Activities?", and this encourages us to open a third volume focused on the same topic.

As a continuation of the Special Issues, the third volume will welcome the study and biological evaluation of new natural and synthetic compounds, highlighting antibacterial activity along with other activities, such as those that are antitumoral, antiviral, anti-inflammatory, etc.

Prof. Dr. Maria Stefania Sinicropi Guest Editor

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciples are all key. Antibiotics is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
