Role of Hydrogen Sulfide in Health and Disease

Guest Editors:

Dr. Emma Mitidieri

Department of Pharmacy, School
of Medicine and Surgery,
University of Naples Federico II,
via Domenico Montesano, 49,
80131 Naples, Italy

Dr. Vincenzo Brancaleone

Department of Science,
University of Basilicata, via
Ateneo Lucano, 10, 85100
Potenza, Italy

Deadline for manuscript
submissions:

closed (31 December 2022)

Message from the Guest Editors

Dear Colleagues,

As Guest Editors, we invite investigators to contribute to this Special Issue entitled “Role of Hydrogen Sulfide in Health and Disease” with original research and review articles. Due to the ambiguous data reported in the literature and possible undiscovered mechanisms underlying Hydrogen sulfide (H₂S) driven effects, there is the need to better understand its role in physiology and diseases. In order to improve the current knowledge, papers describing novel mechanism(s) of action and/or interaction that help to clarify whether H₂S is friend or foe for human health will be especially welcome and published online in *Antioxidants*.

Editor-in-Chief

Prof. Dr. Alessandra Napolitano

Department of Chemical
Sciences, University of Naples
"Federico II", Via Cintia 4, I-80126
Naples, Italy

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of "oxidative stress" a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Food Science)
