Natural Products: Biological-, Antioxidant Properties and Health Effects - 2nd Edition

Guest Editor:

Dr. Evangelos Zoidis

Laboratory of Nutritional
Physiology and Feeding,
Department of Animal Science,
School of Animal Biosciences,
Agricultural University of Athens,
75 Iera Odos Str., 11855 Athens,
Greece

Deadline for manuscript
submissions:

closed (30 November 2023)

Message from the Guest Editor

Natural products contain numerous antioxidant compounds endowed with reducing and radical scavenging properties. Polyphenols, carbohydrates and derivatives, terpenoids, and essential oil components are only some of the compounds that are capable of counteracting oxidative damage. In vivo, they quench radical species, peroxides, and promoters of oxidative reactions and act on redox-sensitive transcription factors to reduce oxidative stress.

I am pleased to invite you to submit your research findings to this Special Issue (2nd volume), which aims to collect original research papers, reviews, clinical trials, and meta-analyses covering all aspects of natural antioxidants' applications, biological properties, antioxidant effects, and health effects. Papers dealing with plant antioxidants and natural products with improved antioxidant capacity through agricultural, analytical, biochemical, molecular, or technological approaches, innovative uses in food and feed science as antioxidants and antimicrobials, or elucidating antioxidant mechanisms are particularly welcome.

Naples, Italy

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of "oxidative stress" a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Food Science)
