Melatonin and Vitamin D in Diseases and Health

Guest Editors:

Dr. Konrad Kleszczyński

Department of Dermatology,
University of Münster, 48149
Münster, Germany

Prof. Dr. Andrzej Slominski

Department of Dermatology,
University of Alabama at
Birmingham, Birmingham, AL
35294, USA

Message from the Guest Editors

The goal of this Special Issue titled “Melatonin and Vitamin D in Diseases and Health” is to collect the latest research findings on a broad range of research topics concerning the effects of dietary factors on a variety of health aspects. We welcome original experimental research, review articles, and commentary articles leading to a better understanding of the biological actions of nutritional factors, their role in disease pathogenesis, and their potential roles in preventive healthcare and treatment.

Naples, Italy

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of "oxidative stress" a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Food Science)
