

## Special Issue

# Dietary Antioxidants against Neurodegenerative Diseases

### Message from the Guest Editor

In this Special Issue, we invite researchers to provide original research articles and review articles that report results on functional foods, specific dietary compounds, or supplements that have been shown to have positive effects, or have the potential to treat neurodegenerative disorders.

## About the Journal

### Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of “oxidative stress” a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.
