Deadline for manuscript
submissions:

closed (30 June 2024)

Message from the Guest Editors

This Special Issue aims to review advances in nanomaterial synthesis and processing for advanced applications in the field of energy, environment, and health, as well as pave the way for future trends in this research field. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Electrochemical water splitting;
- Lithium-ion batteries;
- Zinc–air batteries;
- Hydrogen production by the photoelectrochemical method;
- Nitrogen, nitrate, and CO₂ reduction reactions;
- Advancing environmental sensing and disaster response;
- Enhancing disaster response and environmental monitoring in coastal regions;
- Smart sensing solutions;
- Advancements in health monitoring: from wearables to integrated monitoring systems;
- Monitoring health in real time;
- Theoretical calculations (DFT, molecular dynamics, etc.).

Editor-in-Chief

Prof. Dr. Jason Love

School of Chemistry, University of
Edinburgh, Edinburgh EH9 3FJ,
UK

Message from the Editor-in-Chief

Impactful chemistry often arises from the marriage of disparate chemical themes and fundamental concepts to focus on an important application and can feature collaborations across the sciences, industry, and beyond. This open access journal, *AppliedChem*, has been created to provide a new home for chemistry research that affords wide-ranging and substantive solutions to current and future global challenges. The broad scope of the journal will enable the best collaborative and targeted chemistry to be exhibited and new applications to be revealed.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 6.7 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers: APC discount vouchers, optional signed peer review and reviewer names are published annually in the journal.
