2. Robert M. Kerr Food and Agricultural Product Center, Oklahoma State University, Stillwater, OK 74078-6055, USA

Deadline for manuscript submissions:

**31 December 2024**

### Message from the Guest Editor

This Special Issue will consider a wide scope of applied microbiology as it relates to foodborne microorganisms and their interactions with foods and processes meant to inhibit bacteria or safeguard foods involving foodborne pathogens, spoilage, or beneficial microorganisms. Topics may include antimicrobial interventions, whether chemical, biological, or physical to reduce or eliminate foodborne pathogens or spoilage microorganisms from raw/processed foods. The Special Issue may also include analysis of microbial outcomes or wholesale microbiome analyses of the result of interventions. The use of ‘natural’ antimicrobials (i.e., bacteriocins, bacteriophage, microbial fermentates, vegetable nitrite) has gained favor in applications such as food preservatives. As Guest Editor of this Special Issue, I look forward to receiving and reviewing your contributions to this topic.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Ian Connerton

Division of Microbiology, Brewing and Biotechnology, University of Nottingham, Loughborough, Leicestershire LE12 5RD, UK

## Message from the Editor-in-Chief

*Applied Microbiology* (ISSN 2673-8007) is a peer-reviewed open access journal that provides an advanced forum for the international community to report and discuss established and emerging applications for microorganisms and their associated technologies. Research articles, reviews, and other publications are released online immediately after acceptance to provide timely unlimited free access to the scientific community and the general public. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus**, **EBSCO**, and **other databases**.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2024).
