Selected Papers from the 12th International Multi-Conference on Engineering and Technology Innovation (IMETI 2023)

Guest Editors:

Prof. Dr. Wen-Hsiang Hsieh

Department of Automation Engineering, National Formosa University, Huwei, Yunlin 632, Taiwan

Prof. Dr. Minvydas Ragulskis

Department of Mathematical Modelling, Kaunas University of Technology, LT-51368 Kaunas, Lithuania

Prof. Dr. Jia-Shing Sheu

Department of Computer Science, National Taipei University of Education, Taipei, Taiwan

Deadline for manuscript submissions:

31 December 2024

Message from the Guest Editors

The main goal of this Special Issue, “Selected Papers from the 12th International Multi-Conference on Engineering and Technology Innovation (IMETI 2023)”, is to present the latest advances in research and novel applications of engineering and technology, especially, on artificial intelligence (AI), materials science, civil engineering, industry 4.0, mechatronic engineering, intelligent computing and system, computer and information engineering, and green technology and new energy. Potential topics include, but are not limited to:

- Artificial intelligence;
- Materials science;
- Mechatronic and robotics engineering;
- Electrical and electronic engineering;
- Optical engineering;
- Civil engineering;
- Chemical and biomedical engineering;
- Computer and information engineering;
- Green technology and new energy;
- Industry 4.0 and automation engineering;
- Control engineering;
- Mechanical engineering;
- Nanotechnology;
- Environmental, food, health science and technology;
- Intelligent computing and system;
- Technology management and innovation.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
