Deadline for manuscript  
submissions:

**closed (29 February 2024)**

### Message from the Guest Editor

Dear Colleagues,

The purpose of this Special Issue is to understand pediatric OSA and its pathophysiology, contributory disease, and other associated health conditions. We aim to collect either clinical, translational, or basic research results to promote our understanding of pediatric OSA. We will also accept limited numbers of review papers. This Special Issue will focus on the following:

- Etio-pathophysiology of pediatric OSA
- Accompanying systemic and developmental conditions—contributory factors and sequelae
- Other associated sleep disturbances influenced by pediatric OSA

da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
