Associate Professor, Faculty of Science and Engineering, University of Nottingham Malaysia, Semenyih 43500, Malaysia

Deadline for manuscript submissions:

**closed (31 May 2024)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue is devoted to sustainable environment and water resource management in various research fields. Now is the time to address the world's pressing water and environmental issues as we aspire to achieve more significant sustainable development for the good of the future.

Sustainable management of global water and environment issues is fundamental for the achievements of all SDGs that can positively impact our world and provide a better future for all, including the improvement to the quality of life. Therefore, this Special Issue is welcoming all experts and will be provided the opportunity to share recent scientific knowledge, management approaches, and engineering solutions from different backgrounds of water and environmental related academia, research institutions, industry companies, non-government organisations, and government agencies.

Dr. Fang Yenn Teo

da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
