

## 5th Anniversary of Environment Section—Climate Change and Natural Disaster

Guest Editor:

**Dr. Athanasios Sfetsov**

Environmental Research  
Laboratory, Institute of Nuclear &  
Radiological Sciences &  
Technology, Energy & Safety,  
National Centre for Scientific  
Research "Demokritos", 15310  
Aghia Paraskevi, Greece

Deadline for manuscript  
submissions:

**31 December 2024**

### Message from the Guest Editor

Climate change has often been attributed as a driver for hydro-meteorological natural disasters around the globe. The new climate regimes introduce changes in the characteristics of extreme events in terms of their intensity, spread and speed, frequency and duration, which we are now studying. These climate-exacerbated natural disasters, such as megafires, floods, heatwaves and droughts, (extratropical) hurricanes, introduce unprecedented impacts on population health, disrupt infrastructures and provision of services, damage the environment and contribute to a reduction in biodiversity, and initiate cascade events. In order to cope with these natural disasters, new paradigms are needed that should be collectively implemented towards the climate proofing of societies, including organizational, structural, technological solutions and capacity building. The Special Issue calls for the submission of innovative studies from all around the world to demonstrate how climate change can have a multi-faceted impact and the actionable demonstration of innovative solutions and concepts towards climate resilience.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Giulio Nicola Cerullo**  
Dipartimento di Fisica,  
Politecnico di Milano, Piazza L.  
da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
