

New Insights in Functional Cosmetic Materials and Industrial Manufacture

Guest Editors:

Dr. Spyros Papageorgiou

Dr. Panagoula Pavlou

Prof. Dr. Athanasia Varvaresou

Deadline for manuscript
submissions:

10 March 2025

Message from the Guest Editors

This Special Issue, entitled “New Insights in Functional Cosmetic materials and Industrial Manufacture”, will provide an overview of recent advances in the research, development and industrial application of synthetic and natural multifunctional ingredients, innovative technologies and manufacturing methods in cosmetic formulations, cosmeceutical products, and medical devices with skin care and dermo-pharmaceutical properties. The scope of this Special Issue includes, but is not limited to, raw materials, methods and/or applications in the following fields:

- Cosmetic ingredients
- Bioactive compounds
- Biotechnological materials
- Nanomaterials
- Re/Upcycling substances and processes
- Skin care formulations
- Cosmeceutical products
- Delivery systems
- Efficacy techniques
- Safety models
- Manufacturing processes
- Industrial applications

an Open Access Journal by MDPI

Editor-in-Chief

Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
