Deadline for manuscript submissions:

**30 November 2024**

### Message from the Guest Editors

Dear Colleagues,

Nature has been a source of inspiration for pharmacists for centuries, and plant extracts with high health-promoting potential are of interest to many scientists. Significant advances in research methods, which allow the discovery of ever newer, previously unknown bioactive substances have also contributed to increased interest in this field. The epidemic of chronic non-communicable diseases (NCDs) is a major social problem, generating high costs for society. Appropriate prevention, for example, through changes in lifestyle and immune support using naturally occurring substances with powerful therapeutic effects seems to be the only reasonable route.

Prof. Dr. Joanna Kapusta-Duch

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
