## **Advances in Biomaterials and Biomechanics**

Guest Editor:

### Dr. Greg Swadener

College of Engineering and Applied Science, Aston University, Birmingham B4 7ET, UK

Deadline for manuscript submissions:

closed (20 January 2024)

# Message from the Guest Editor

Dear Colleagues,

Research in materials designed for biomedical applications, characterisation of biological materials and biomechanics has continued to make great progress. New materials, functionalities and synthesis methods have increased the breadth of materials and applications in both laboratory and medical practice. Novel characterisation tools and imaging methods have also been developed. This Special Issue aims to inspire further research in these areas by bringing together papers that cover complementary aspects of the development of biomaterials, biomechanics and testing techniques.

## **Editor-in-Chief**

# **Prof. Dr. Giulio Nicola Cerullo**Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

# **Message from the Editor-in-Chief**

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
