Lyon Institute of
Nanotechnology, UMR 5270, INSA
de Lyon, 69100 Villeurbanne,
France

Dr. Katarzyna Wojtasik

Department of Physics, Cracow
University of Technology, 31-084
Kraków, Poland

Deadline for manuscript
submissions:

closed (20 July 2024)

Message from the Guest Editors

Optoelectronics brings together various fields of science, such as chemistry, solid state physics and electronics. It uses the properties of light to convey a variety of information. Materials used in optoelectronic devices are characterized by photophysical properties and have been the subject of research for many years in research centers around the world. The rapid development of optoelectronics took place in the 1960s, when lasers began to be used as sources of coherent light and semiconductor materials to build elements of optoelectronic systems.

It is with great pleasure that I invite scientists to contribute to this Special Issue, entitled "Photophysics of Organic and Organic-Inorganic Hybrid Optoelectronic Materials".

Topics of interest include, but are not limited to, the following:

- Synthesis of organic materials for applications in optoelectronics;
- Synthesis of organic-inorganic hybrid materials for applications in optoelectronics;
- Photophysical properties of materials for optoelectronics.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
