Deadline for manuscript
submissions:

20 November 2024

Message from the Guest Editor

We are inviting submissions to the Special Issue on “Application of Artificial Intelligence in Visual Processing”.

Scientific articles reporting results achieved and proposals for new ways of looking at AI problems are welcome. Both of them must include demonstrations of value and effectiveness. The broad aspects of AI constitute advances in the overall field of visual processing, including but not limited to receiving, relaying, and processing visual information.

Papers describing applications of AI are also welcome, but the focus should be on how new and novel AI methods advance performance in application areas, rather than presenting yet another application of conventional AI methods.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
