

Advances in Service Orchestration and Automation for Softwarized Networks

Guest Editor:

Dr. Molka Gharbaoui

TeCIP Institute, Scuola Superiore
Sant'Anna, 56124 Pisa, Italy

Deadline for manuscript
submissions:

closed (20 July 2022)

Message from the Guest Editor

This Special Issue will cover the latest contributions of researchers in, but not limited to, the following research topics: advances in automated design, deployment and validation, end-to-end service orchestration, intent-based networking, network slicing, dynamic SDN and NFV operation, application of AI and ML to simplify deployment and operation in softwarized networks.

- SDN
- NFV
- orchestration
- IBN
- automation
- artificial intelligence
- machine learning

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
