

Biofilm and Applications in Medicine and Industry

Guest Editors:

Dr. Adam Junka

Department of Pharmaceutical
Microbiology and Parasitology,
Wrocław Medical University,
Borowska 211 Str., 50-534
Wrocław, Poland

Prof. Karol Fijałkowski

Department of Microbiology and
Biotechnology, Faculty of
Biotechnology and Animal
Husbandry, West Pomeranian
University of Technology, 70-310
Szczecin, Poland

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editors

Dear Colleagues,

Microbial biofilm is one of the most important phenomena observed in our world. The number of studies concerning the impact of these communities of microorganisms on human health and industrial settings is growing exponentially every year, providing fresh insight into the complexity and nature of these fascinating structures. Therefore, we cordially invite you to submit your latest research to a Special Issue of *Applied Sciences* entitled “Biofilm”. We would like this Special Issue to cover as many biofilm aspects as possible, and therefore, we welcome articles concerning biofilm formation and composition, new biofilm-oriented antimicrobials and methods of biofilm eradication, and methods of biofilm detection and application of biofilm-related products in medicine and industry. We hope that this SPECIAL ISSUE will be a worthwhile body of knowledge bringing us closer to biofilm understanding and management.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
