Message from the Guest Editors

Dear Colleagues,

To celebrate the publication of 20,000 articles in Applied Sciences, we have taken the initiative to launch a Special Issue called “Celebrating Applied Sciences Reaches 20,000 Articles Milestone: Feature Papers in Applied Biosciences and Bioengineering Section”. We would like to invite well-known experts in all the areas of interest covered by “Applied Biosciences and Bioengineering” to submit their original research or review articles of the highest quality to celebrate with our readers on this special occasion.

This Special Issue intends to collect papers featuring important and recent developments or achievements in biosciences and bioengineering, with a special emphasis on recently discovered techniques or applications. The papers can cover either experimental or theoretical aspects or both, including the following topics: advanced diagnostics, anatomy and biochemistry, bioinformatics, biomaterials, biomechanics, biomedicine, biotechnology, clinical engineering, drug delivery, genetics and microbiology, life science, neuroscience, physiology, radiology, tissue engineering, etc. Both research articles and review papers are welcome.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
