

## **New Application of Chitosan in Wine, Beer and Fruit Juices Process**

Guest Editors:

**Dr. Fabio Chinnici**

**Dr. Donato Colangelo**

**Dr. Antonio Castro Marín**

Deadline for manuscript  
submissions:

**closed (10 August 2021)**

### **Message from the Guest Editors**

Chitosan is a versatile natural polymer that has been the subject of a vast number of studies over the last few decades. Food and beverage production are two sectors where chitosan has recently demonstrated promising applications, exploiting its antimicrobial or chelating activity. In wine, beer, or fruit juice processing, for instance, chitosan may help to control microbial spoilage, improve clarification, and reduce heavy metal contents.

This Special Issue will collect the most relevant advances in the use of chitosan as a technical adjuvant or additive in the production of wine, beer, and fruit juice discussing, among others, subjects such as the following: comparative performances of chitosan from distinct sources; modification of chitosan for improved (and safe) microbial and chelating ability in beverages; technical solutions to exploit chitosan as active packaging material in wine, beer, or fruit juice; the role of chitosan as an antioxidant/radical scavenger in vegetal-derived beverages; unconventional utilization of chitosan to modulate the physicochemical or volatile composition of beverages. Both research and review papers are welcome.

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
