Deadline for manuscript
submissions:

closed (31 March 2023)

Message from the Guest Editor

Dear Colleagues,

We are inviting submissions to this Special Issue on New Frontiers in Clinical Dental Materials.

Research in the dental field today is constantly evolving with the placing of new materials on the market. The researcher and the clinician must be aware of news but also of the principles and protocols that allow the best results in their use. Tissue bioconservation and adhesive systems have totally changed the clinician's way of thinking during clinical practice for the diversity of choices available to them. This Special Issue offers the possibility to researchers and clinicians to send their research and their studies on new dental materials and to share the results achieved in all fields of dentistry.

Studies with innovative approaches or providing original information are of higher priority.

In this regard, we are delighted to invite investigators to submit original research articles (trials, cohort studies, case-control, and cross-sectional studies), high-quality case reports, communication, and reviews (narrative or systematic reviews and meta-analyses) in the fields of interest around new dental materials.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
