Constrained Deep Reinforcement Learning for Energy Sustainable IoT Networks

Guest Editors:

Prof. Dr. Jerry Chun Wei Lin
Department of Computer
Science, Electrical Engineering
and Mathematical Sciences,
Western Norway University of
Applied Sciences, Bergen,
Norway

Dr. Ming-Tai Wu
College of Computer Science and
Engineering, Shandong
University of Science ad
Technology, Qingdao, China

Dr. Mu-En Wu
Department of Information and
Finance Management, National
Taipei University of Technology
(NTUT), Taipei 10608, Taiwan

Deadline for manuscript
submissions:
closed (20 May 2022)

Message from the Guest Editors

This Special Issue focuses on the environment of Energy Sustainable IoT, the critical challenge of the proposed methods is the endless and mess input data from an IoT network. Furthermore, it needs to continuously update the training model to fit the latest update. We encourage researchers to share their latest state-of-the-art solutions to interesting problems in this domain.

- IoT
- deep learning
- artificial intelligence
- energy sustainable
- artificial neural network

Special Issue

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
