Deadline for manuscript
submissions:

closed (30 April 2022)

Message from the Guest Editor

Dear Colleagues,

The *Special Issue* promotes new ideas and approaches to answer numerous questions on earthquake prediction topics. Original research contributions are welcome from multidisciplinary fields of investigation (seismicity, geophysics and geodesy, hydrology, geochemistry, ionosphere and biological systems, etc.). Applications of advanced statistics, decision-making science, and physics of complex non-linear systems are encouraged.

an Open Access Journal by MDPI

Editor-in-Chief

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
