Department of Physics, University
of Namur, Rue de Bruxelles 61, B-
5000 Namur, Belgium

Deadline for manuscript
submissions:

closed (31 January 2024)

Message from the Guest Editor

The Section “Nanotechnology and Applied Nanosciences” of the journal *Applied Sciences* has launched a new Special Issue entitled “Feature Review Papers on Nanomaterials”. The Special Issue will be an occasion to describe ongoing research on either well-known or novel nanostructures. It is open to domain specialists who are ready to contribute review papers outlining the salient features of any, well-focused topic related to nanomaterials. The topics include synthesis, characterization, manipulation, etc. of nanomaterials, properties of materials in a broad sense containing nanostructures, design of nanodevices, computer simulation, etc. As usual, review papers must offer an up-to-date survey of the existing literature on the subject, while pointing out potential applications. The Special Issue is open to submission from now until the end of 2022.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
