

an Open Access Journal by MDPI

Audio, Speech and Language Processing

Guest Editors:

Prof. Dr. Kai Yu

Department of Computer Science
and Engineering, Shanghai Jiao
Tong University, Shanghai
200240, China

Dr. Yan Song

National Engineering Laboratory
for Speech and Language
Information Processing,
University of Science and
Technology of China, Hefei
230026, China

Dr. Ya Li

School of Artificial Intelligence,
Beijing University of Posts and
Telecommunications, Beijing
100876, China

Deadline for manuscript
submissions:

closed (29 February 2024)

Message from the Guest Editors

The 17th National Conference on Man–Machine Speech Communication (NCMMSC), the largest and most influential event on speech signal processing in China, will be hosted by the Chinese Information Processing Society of China and China Computer Federation, jointly co-organized by iFLYTEK Co., Ltd., the University of Science and Technology of China and the National Engineering Research Center for Speech and Language Information Processing. The NCMMSC is also the academic annual meeting of the technical committee of Speech Dialogue and Auditory Processing of China Computer Federation (CCF TFSAP).

Papers published in the Special Issue on “National Conference on Man–Machine Speech Communication (NCMMSC2022)” will be focused on the topics of speech recognition, synthesis, enhancement, and coding, as well as experimental phonetics, speech prosody analysis, pathological speech analysis, speech analysis, acoustic scene classification, and human–computer dialogue understanding.

Details about NCMMSC2022 can be found from

<http://ncmmsc2022.ustc.edu.cn>

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
