

Heuristic Algorithms in Engineering and Applied Sciences

Collection Editor:

Prof. Dr. Panagiotis G. Asteris

Computational Mechanics
Laboratory, Department of Civil
Engineering, School of
Pedagogical and Technological
Education, Athens, Greece

Message from the Collection Editor

The focus of this Topical Collection is on the development of computational methods for solving problems in fields of engineering. Articles submitted to this Special Issue can also be concerned with the most significant recent soft computing, optimization algorithms, hybrid intelligent systems, and their applications in engineering sciences.

In this Topical Collection, we welcome both original research papers and review articles on diverse topics such as:

- Artificial neural networks (ANNs)
- Computational biology/bioinformatics
- Computational science and engineering
- Evolutionary multimodal optimization
- Forecasting models
- Fuzzy set theory and hybrid fuzzy models
- Genetic algorithm and genetic programming
- Heuristic models
- Hybrid intelligent systems
- Image processing and computer vision
- Machine learning techniques
- Multicriteria decision making (MCDM)
- Multiexpression programming
- Multivariate adaptive regression splines (MARS)
- Neural networks and deep neural networks
- Optimization algorithms

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
